

# Menu of Services

## FACIAL TREATMENTS

Chemical Peel  
Biocellulose Mask  
Dermaplaning  
Customized Facials  
Vibraderm - microdermabrasion for face,  
hands and any other body parts  
Microneedling + PRP

## NEUROTOXINS

Botox  
Xeomin  
Dysport

## INJECTABLE FILLERS

Restylane Collection of Fillers  
Juvederm Collection of Fillers

## IPL/PHOTOFACIAL

Full Face Skin Rejuvenation  
Hyperpigmentation Spot Treatment  
Arms & Legs  
Rosacea  
Facial Veins  
Acne  
IPL / ResurFX – Photofractional Combined

## ND YAG LASER

ND Yag Leg Vein Removal  
ND Yag Angiomas (red spots)

**We accept Alle and Galderma rewards!**

770-533-6658

## DEKA TETRA PRO ADVANCED CO2 LASER

Cool Peel CO2 – no down time  
CO2 Laser Ablation

## RESURFX FRACTIONAL LASER

ResurFX Non-Ablative Skin Resurfacing on face  
ResurFX Stretch Marks  
ResurFX Acne Scars  
Neck  
General Scars

## LASER HAIR REDUCTION

|            |           |
|------------|-----------|
| Ears       | Chin      |
| Upper Lip  | Underarms |
| Bikini     | Brazilian |
| Lower Legs | Full Legs |
| Men's Back |           |

## MICRONEEDLING & PRP (RENUPEN)

PRP – Platelet Rich Plasma  
Face & Neck Microneedling  
Vampire Facial  
PRP Injections Only  
Face / Neck with PRP + Injections  
PRP Hair Restoration

## NUERA RADIO FREQUENCY SKIN TIGHTENING

|             |                            |
|-------------|----------------------------|
| Abdomen     | Jowls                      |
| Arms        | Legs                       |
| Cellulite   | Lymphatic Draining/Massage |
| Eyes        | Neck                       |
| Flanks      | RF Massage                 |
| Full Facial |                            |

## LATISSE

# Glossary of Terms

**Chemical Peel** – A customized chemical exfoliation that dissolves dead skin cells off the epidermis revealing fresh, new, bright skin. Chemical exfoliation helps to improve the appearance of photodamage, post-inflammatory hyperpigmentation, pore size, fine lines, and wrinkles.

**PRP Hair Restoration** – PRP hair restoration uses your own body's stem cells and growth factors to grow new hair follicles in areas where the hair is thin but not absent. This is your own hair, generated from the cells your body uses to repair and restore day to day cell damage.

**Microneedling/PRP** – Stimulates natural collagen production while allowing fine channels to be created in the skin to increase topical nutrient absorption. This allows for treatment delivery deep into the skin's fibroblasts to feed the cells found in the dermis and basal layer.

**IPL/Photofacial** – Diminishes fine lines, pore size, redness, broken capillaries, sun damage, and pigmentation problems without requiring downtime of laser resurfacing. Photofacial Therapy also reduces redness caused by rosacea.

**ResurFX Fractional** – Skin resurfacing procedure used to reduce signs of aging and improve skin texture, laxity, and tone. Also used for scar and stretch mark reduction.

**Dermaplaning** – A simple, safe procedure for evenly exfoliating the epidermis and ridding the skin of fine vellus hair (peach fuzz). The result is a more refined, smooth, glowing appearance and is a great treatment to have prior to a big event.

**Laser Hair Reduction** – A quick, noninvasive way to permanently reduce unwanted hair. It can be performed on virtually all areas of the body.

**CoolPeel** – A brand new way to safely and comfortably deliver the benefits of a traditional CO2 resurfacing treatment. By targeting just the superficial layer of skin tissue, damaged skin is removed, revealing younger, healthier-looking skin.
